DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

Located in mid block, with left side wall facing a parking lot, this 3rd story building has a flat roof which slopes slightly to the rear. Though much altered, it retains some evidence of once being a Greek Revival house, (probably of 2½ stories). The second floor window lintels are identical to those on 815 N. Howard Street, though the windows are taller.

The first floor has a shopfront with 2 wood and glass doors recessed to the right. The shop window consists of one large panel on the street and a smaller one at an obtuse angle which forms one side of the entrance recess. Over both panels of shop window these are transoms which have been painted over, the one on the front as a sign. There is a shop cornice with a wide fascia, again used as a sign, and ornamented beaded brackets, one at each end.

The second floor windows are taller than those on the third floor and have blocked lintels; those on the third floor have narrow wood lintels which extend over the side edges of the apertures. Both second and third floor windows are one-over-one double hung with wood sills.

There is a deep cornice, whose 4 brackets divide it into 3 rectangular panels, each containing a louvered ventilator grille. The two end brackets extend over the edge of the cornice, and there are 6 lintels in each panel. Two chimneys are located on the left wall.
